

Media Delivery Guide

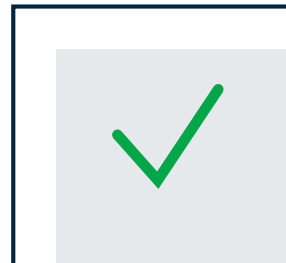

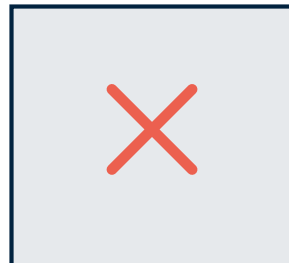

LET YOUR BRAND TAKE FLIGHT!

Our Media Delivery Guide helps you prepare your files in the best possible way so that we can put them to the best possible use.

Let's go!

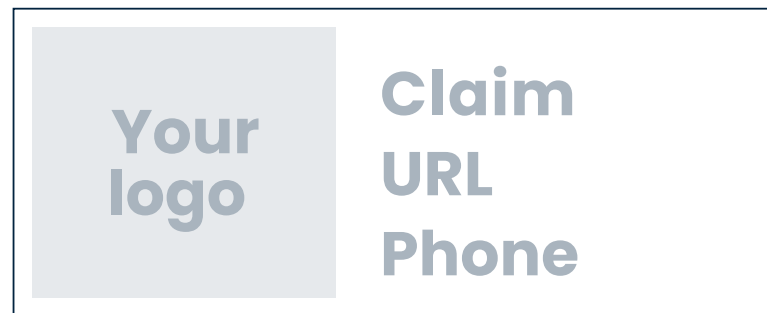

Your files should meet the following requirements:

- Your files should have a resolution of 150 dpi at the final size
- You may deliver in black or in colour
- Please use the following file formats: JPG, PDF, EPS
- Files must be prepared for print, i.e. in CMYK mode
- Spot colours must be avoided
- Please avoid extending your layout into the bleed
- Please keep a margin of 2 cm to the edge on all sides, see below

OUR TIP:

All our surfaces are laid out in landscape format. If your logo is rather square in its base shape, it makes sense to use the adjacent space, e.g. for a claim, a URL, etc.

**If you have any questions,
please feel free to contact us.
We are happy to help.**
